Investment Strategy & Process

Investment Strategy

- The International Equity Strategy pursues long-term capital appreciation by investing in quality, international companies.
- The portfolio management team uses a robust, quantitative stock selection model to identify companies that have attractive risk/return profiles.
- The team favors investments that offer above-average growth prospects at reasonable relative valuations, strong and/or improving earnings growth rates, as well as sustained earnings quality and good capital deployment.
- The team looks for investments that benefit from differential regional and sector growth trends, have stock-specific growth drivers such as a product innovation, distribution, or operational adaptability, and sustainable business models that do better than peers across the economic cycle.

Investment Process

- The investment process combines quantitative and fundamental discipline to construct portfolios.
- The quantitative approach brings objectivity to analysis, breadth in coverage and systematic process to the buy and sell decision.
- Fundamental research complements this data-focused analysis. The seasoned judgment of the portfolio managers helps to contextualize and interpret model rankings and validate key recommendations.
- The combination of the two disciplines results in a portfolio in which managers have high conviction in holdings, turnover is lower when compared to pure quant-run portfolios, and there is a deeper understanding of the portfolio's overall dynamics and composition.
- Portfolio managers monitor and manage overall portfolio risk, including Sector, Region and Currency exposures relative to the international benchmark.

Boston Advisors, LLC International Equity Composite contains all discretionary, fee paying, institutional accounts with a minimum portfolio size of \$2 million that invest in international equities including both local (ordinary) shares and U.S. ADR's. The International Equity Composite is measured against the FTSE All World Ex-US Index. The Index comprises large and mid-cap stocks providing coverage of developed and emerging markets excluding the U.S. The International Equity Composite has a creation and inception date of February 28, 2015. Boston Advisors claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Boston Advisors has been independently verified for the period from April 1, 2006 through December 31, 2019. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The International Equity Composite has had a performance examination for the period March 1, 2015 through December 31, 2019. The verification and performance examination reports are available upon request. Boston Advisors is the equity division of Knights of Columbus Asset Advisors (KoCAA). KoCAA purchased the institutional assets of Boston Advisors LLC on October 1, 2019. KoCAA is an SEC registered investment adviser that maintains a principal place of business in the State of Connecticut. For information about KoCAA's business operations, please consult the Firm's Form ADV disclosure documents, the most recent versions of which are available on the SEC's Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov. Knights of Columbus Asset Advisors, LLC, is a wholly-owned subsidiary of Knights of Columbus, the world's largest Catholic Lay Organization. A complete list of composite descriptions, broad distribution pooled funds, and pooled fund descriptions for limited distribution pooled funds is available on request. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees, capital gains and includes the reinvestment of all income. Prior to July 1, 2019 performance was presented gross of withholding taxes. As of July 1, 2019 performance is presented net of foreign withholding taxes. Net of fee performance was calculated using the highest applicable stated management fee of 0.75% on total assets, applied quarterly. Actual investment advisory fees incurred by clients may vary. The annual composite dispersion is presented gross of management fees and is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The three-year annualized ex-post standard deviation of the composite and/or benchmark is not presented prior to 2018 because 36 monthly returns are not available. Policies for valuing investments, calculating performance, and preparing GIPS reports are available upon request. GIPS® is registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein Current annual investment advisory fees are as follows: 0.75% First \$25 Million, 0.65% Next \$25 Million, 0.55% Next \$25 Million, 0.45% Remainder.
